

5.6 – SNMP integration

Configuration in gateway.conf:

```
#agent address and port:
snmp.address.get-set = udp:192.168.1.68/1161
snmp.mib.prop.file = /SparkGateway/snmp/snmp-agent-mib.properties
nmp.table.size.limits.prop.file = /SparkGateway/snmp/snmp-agent-table-size-limits.properties

# percentage of license usage to send alert
snmp.license.usage.warning.percentage=0.5
```

Please check other MIB configuration files in installDir\snmp.
