# 1.1 – SparkView only

Pros:

- Easy and fast, 15 minutes to installation of Java and SparkView
- Use SparkView as a normal RDP client with white list and black list.
- Integrate with Active Directory, LDAP, RADIUS, OAuth2, MS RD Web Feed easily.
- No need for another web server.

Cons:

- You can customize the static web page, but if you need a dynamic web page, you'll need to write a plug-in for SparkView
